CHAPTER ONE

"You need to ...
(ninety-seven) ... get
your ... pump on."

I'm frankly (ninety-eight) ... shocked they let you on this (nnf ninety-nine) mission, the ... shape you're in.

People love me for my mind, not my body. Never my body.

A hundred!

Sweet counting, bro.

Your body ...

...and your mind are one, you idiot!

Shh! I'm exercising my mind. My mind is super-ripped.

Everything's a joke to you! I guess it's easy to coast when your rich *auntie* is pulling the strings!

Seriously?? Is there, like, some sort of aggro version of Space Madness I'm not aware of?

DOCTOR! COME QUICK! CASEY'S GOT SPACE AGGRESSION! WE'RE ALL IN DANGER 'CAUSE OF HIS MINDMUSCLES!

Fuck you, troll! You're a disgrace to this mission!

I'm a highly sought-after goddamn bio-engineer!

Now give me back Super Ghost Brothers, you neckless freak, or I'll—

If you don't leave Keith alone...

...every time you say a number out loud I will stab you in the leg, Hippocratic Oath be damned.

Ha! DOCTOR'S ORDERS, DICKWAD.

And if you keep baiting him..

...I'll send you to your room on the other side of the airlock.

Wow, unnecessary, Laurette. And, frankly, a little victim-blame-y if you ask—

BIDDLEBEEP

Can everyone please meet me on the bridge? There's a bit of a situation.

We have an asteroid problem.

Oh, god, we're going to die.

No, we're not. But for some reason, the Amor asteroids, which are supposed to be orbiting in a predictable pattern, aren't. They're erratic and, frankly, in our way. For the most part.

What does that mean, Lance?

Well, there's this: a gap. For some reason, the asteroids are, uh, orbiting this ... hole. Like a corridor. I don't know what it could be, but no debris is crossing it.

Diverting course around these asteroids would take days, which we don't really have, so I'm thinking we just shoot for this bullseye.

It appears to be safe.

"Appears???"

Pardon me, pilot, but I don't think you're qualified to make that claim!

Charming as always, Casey. Samantha?

I've run all the diagnostics. It's not actually exerting a gravitational pull, emitting higher-than-expected radiation or ... anything. It's just ... space, with a few hydrogen atoms.

Fine! I get it!
We're in danger!
What's th—

Everyone
get down to
the bridge,
obviously!

I can—can
move the
ship a bit, but
not much!
Fuck!

Left
booster is
just—it's
gone!

What the
hell have you
done, you
fucking
moron??

Shut up and
strap in!

Unbelievable!
I told you!
I told you it'd
be—

SHUT!!!

UP!!!

Holy...

...shit.

We were still two hours from entering the anomaly when it just—just grabbed us and started pulling us in at 40,000 clicks!

We're being barraged with—I guess asteroids—but there's nothing on our scopes!

I can ...kind of make them out! They're travelling in the same direction as us and I think I can nudge the ship enough to—

KRRRSHHHH

No.

— Three minutes of oxygen used.

Why ... why wouldn't it just tell me how much I have left—

This is Lance! Can everybody hear me?

Lance! Thank god!

Casey! Keith! Samantha! Can you hear this?

I'm here! I'm okay!

AHH THIS IS TERRIFYING WERE GONNA DIE THIS IS KEITH SCREAMING AHHH—

Huh.

Holy shit! Lance!
Lance!

Keith!

Lance!
You're alive!
We're alive!

...Where's
your helmet?

Oh god! *H-how*
am I alive? What if ...
what if I'm breathing
poisonous Martian
pollen right now
that'll re-wire my
brain until I
murder—

—wait, this
isn't Mars.

Nope.

This isn't
anything close
to Mars.

Nope.

What the hell??
Are we dead?
Were we dead all
along?

Is this Avatar
heaven?? What
are we going to
do??

FIK
FIK

We
survive.

And find the
others.

What am I
supposed to do
with this? I can't
stab anything! I'm
a vegetarian!

No you're
not.

Well, not
when other
people murder
the animals,
true, but...

FIK
FIK

Why do we
even need
these? If we run
into any, uh,
aliens, shouldn't
we be seen as,
yknow, non-
threatening?

Because
of that.

Okay, I guess
that makes sense.
You could probably
take it with just
your action-hero
muscles, though.

You look
great, by the way.
Crash-landed
rough-and-tumble
is a good look
for you.

No, not
that...

Head for the dense forest! The trees should slow it down!

Oh god oh god oh god

We're good!

Just keep running! Keep running!

Dont look back! We'll—

—Shirt.

Dead end.

Literally!
I can't die!
I've never even
kissed a girl!!
I don't want to,
but still!

Okay.
"Flight"
didn't work,
so all we
have left is
"fight."

HIFFPHH
HIFFPHH
HIFFPHH

RAHHHHHHH

RAAAAAA!!

Patni, I'm more than qualified. I've been here three years, I oversaw the terraforming project, I'm y'know, relatively fit and young. It makes sense!

You're also my nephew. Shooting you into space is going to be hard to explain to your parents.

Fuck them! They haven't talked to me in a year!

So, what? I'm supposed to miss out on a once-in-a-lifetime opportunity because you and I are related?

You'd be getting this opportunity because we're related.

I'm the right person for this trip. You know this.

You've never once shown an interest in the missions.

Why now? Are you trying to prove something to your parents? Because if so, I—

—No! That's not ...

I don't have anything here anymore.

Hello, stranger. My name is Jinli, I am queen of the region.

I'm, uh, Keith. Prince of the dance floor.

I'm sure you have questions. Please, have a seat. Your injuries have been healed, but you may still be light of head.

I ... okay. I guess "where am I" is a good start? And ... uh ... how am I understanding you? Did you guys get Reading Rainbow beamed here, or...?

You're in Endom, the fourth kingdom of Kaptara. The pollen from our linguaflora rewrites the language centres of your brain, enabling us to speak a common tongue.

Alien pollen! I knew it!

I—hey! That guy saved my life!

Yes, my Chief Armorer and Head of Security, Manton, found you many miles from here.

Greetings.

It seemed ... strange that anyone would wander the Murder Forest—

"Murder Forest." Huh. Signs would have been nice.

—so, after I slayed the Fuscibeast, I sought out your strange vessel.

The readings on it show tachyon foam, meaning you have traveled a great distance using a Quantum Pinch, which connects two points in space. But your vessel indicates you would not have the technology to make such a portal materialize.

Um, we created the Internet, sooo—

-I am certain your nets are well-constructed, but my point is...

... we have traced the source of the Quantum Pinch. It is as I feared...

We tracked an armada belonging to this man, the leader of the Dark Boroughs, breaking air and space treaties to escape the atmosphere. His name is Skullthor and I am afraid he has...

SKULLTHOR

Mammolithic Tuskuloid (extinct)

AGE: Unknown

RULER: The Dark Boroughs, The Nether Swamps, Shawinigan's Point

STATUS: Evil. Single?

Matted wool covers something. A hand? A knifehand? A more sinister appendage?

...traveled to your planet to rule it.

Hm, yes, of course. That's obviously what happened here in real life.

But fear not, tiny alien! For I am Dartor, Prince of Endom!

I've bested that sack of shit Skullthor before and shall do so again! Ha ha!

My son is correct. We will aid you and your planet. Skullthor is our burden.

I will bash in his face and save all the planets!

So do not worry, Keith, Prince of the Dance Floor, we will get you home. This I swear.

That's ... wow. You're crazy generous and ... muscly, but ...

...why on earth would I want to go back?

What's an 'earth'?

AGH! Son
of a—

RRR

FFF

Better! Remember, though, you need to think of your *battlebroom* as an extension of your body.

Ow.

But I barely know how to use my *actual* body extensions.

Ha! Well ...

...I find that hard to believe.

Ahem.

Oh! Hey! Manny!

Manton.

Manton! Right. Manton, this is my battlepong instructor, Pon-

Pongord. 28 years old. Resides in Windfire Heights.

One prior for theft under a thousand from a senior citizen. Who he was "instructing."

I ... uh ... I'll see you next week, Keith. Just work ... work on your sidehand ...

What the **FUCK**, man? Why do you even know that shit? You're like a cockblock officer! A ... a cockblofficer! A ...

... gimme a minute, I got a better one ...

It is my job to know these things. You are from another world. People will take advantage of you.

Yeah, I was kind of counting on that.

What do you want exactly?

I know our Queen has provided a place for you to stay...

...and you are settling in to this "new life"...

I'm not gonna lie, it's preeetty fantastic.

...but we are heading out this afternoon to locate your comrades and find a way to your home planet. I still think it would be far easier navigating our arrival with you—

—Look, I don't want to go back! End of story! Beginning of new story: me, making out with battlepong instructors!

But Skullthor could be ravaging your world! Do you not even care?

WE can stop him!

I'm certain there is someone on your planet you care about!

You'd be wrong.

I want ANSWERS!

Where is he, Vilektra? Where's Skullthor? It's been weeks!

—YOU'RE in charge of monitoring this mission! YOU'RE the one who will pay if it fails! YOU'RE—

Grah!

While our legion passed through the rift, others journeyed from the other side to here.

News from Endom has it that one of the creatures found its way there. If it saw Skullthor passing through, then we need to silence it.

If Jinli already knows, then we must stop her forces from going after him.

We need to kill them all.

Let's kill them all!

For the last time, we are not killing anyone. We find a way to Earth, defeat Skullthor in battle, and bring him back here to face justice.

Bah! This is why you are weak!

Failing to Prepare is Preparing to Fail

The only justice is blown justice! With my trademark darts silencing villainous assholes forever! Ha ha!

Sure.

Motivational Orb! Surely you must share my sentiment! Am I not right in demanding death for our enemies?

Be the Best You Can Be

Ha ha! The best me is me NOW which is the best of all! Stupid orb!

My queen!
All is ready for
our journey.

Excellent.
I would like a word
with you before
you leave, my
friend.

If you are concerned for
your safety, I have every
confidence in Cyklowl's
ability to protect you. You
will always be in his sight.
Always.

I ... yes,
I am aware
of Cyklowl's ...
singular
focus ...

...but I'm more
concerned with your
safety. We've heard
nothing from Skullthor
for years, and now,
such a bold move.

I... fear there's
more at plan than
we know.

My queen...

...Skullthor fails.
It is what he does.
I—you and I—win.
Nothing about that
will change.

Oh, Manton. You
always know how to
make me feel safe
and—

MOMMY!

Have you come to wish us luck on our journey, Mommy? You may save your luck wishes for our enemies and wish them luck in becoming ghosts when they feel the sting of my—

—Good luck, my son.

Let us ride, friends!

Manton...

...he's as bright as a black hole, but he's my only son.

If I lose him I will find another son for you, I swear.

Dartor! Orbl! Let us ride!

For our Queen!

For Endom!

FOR KAPTARA

Let the Good Times Roll

—alllll this science...I don't understaaaand... It's just my jobbbb five days a weeeek... A rocket—

Hey! I know you!

Yeah, I have one of those faces, even on the other side of the universe.

No! No! You're in the paper!

WELCOME HOME, KREEP. HOW CAN MR. HELP ASSIST YOU?

Keith! For the last time, it's Keith!

WOULD KREEETH ENJOY A TALL, REFRESHING GLASS OF GLOP?

No! Just... just let me sit and be quiet for a while, okay?

YOU HAVE BEEN INJURED LET ME HEAL YOU KREEEF.

I WILL FUSE NEW FLESH TO YOU, KREEETH.

FISSSSSS

IT IS "NO PROBLEM."

AHH! AHHH! THAT'S HORRIBLE! AHHH!!

I hate you mr. help I hate you

ATTENTION!

THERE WAS A PACKAGE DELIVERED FOR YOU TODAY, KWEEPS.

What? Who would—

IT CONTAINS BELONGINGS RETRIEVED FROM YOUR CRASH SITE.

COMMANDER MANFON DEEMED IT OK TO RETURN TO YOU.

Yeah, but it's not mine, it was Lance's.

I don't even need any of this junk anymore!

It's all survivalist shit and I'm totally—

—surviving...

KWEES, WOULD YOU LIKE ME TO DISPOSE OF THIS JUNK?

Totally safe, right?

Of course. I am the Queen's personal air transport within Endom. My back is as safe as land.

Yeah, well I've been on your "land," and it tried to kill me, so—

Ha ha! The land is bountiful to the knowledge-filled and deadly to the ignorant! I hear you are a man of science. You will be safe, I'm sure.

Just need to overcome all of my basic fears.

Yes, the sweat of your balls on my majestic back is evidence of this.

Uh, yeah. Sorry about that, Kondra. Thanks ... thanks for the lift.

My Queen requested you be brought to her. She is my Queen. She is my light.

Yeah, she seems nice. A real "my light" kind of gal!

Hey, guys. How're tricks?

Please do not talk to us, Ball Sweat.

My Queen, may I present Keith Kanga.

You wished to see me? Are your accommodations adequate?

Yeah! Just great. Everything I could hope for, really ...

...I just...

...Did, uh, Manton and his crew make it off okay?

This is what you needed to ask a queen in person?

Ha. Yeah, I guess it's a little dumb. It's... I mean Manton saved me.

He's been kind of shadow-protecting me since I got here. I just... wanted to make sure he's okay.

Ah.

Forgive me, Keith Kanga, but it strikes me as unusual that you would enquire about the well-being of one you just met when you so recently absolved yourself of the fate of your own people.

I ... well, he did more for me than all "my people" combined, so—

—I find that hard to believe, even having only encountered one of your world.

Was this some planet of monsters, Keith Kanga?

-No.

...No, of course not.

Is it, uh, too late to catch up to the crew? I mean, I really like the apartment, but getting out of it would ... probably be good for me. You know, to explore. Away from that apartment.

For science.

It will be done. Gather your belongings and wait at the Kingdom Gates tomorrow at sunrise. I will arrange for an escort to bring you to my son and Manton. Goodbye, Keith Kanga.

Oh! Uh, thanks! You're, like, a great queen ... Queen!

Shall I contact She-La?

I think that would be best.

Forgive me, your highness, but the young man seemed eager to leave his apartment. Did you assign ... Mr. Help to assist him, by any chance?

doo doo da da bad ideas all the time

doo doo da da gonna die gonna dieeee

Mmmm. So you must be the alien.

Ah!

Yes! Sorry, I'm just—

—the sooner we leave, the sooner we catch up to that band of roving testosterone.

Are you, like, the queen's transportation or something?

What? No! I'm She-La! Famed tracker and hunter! If our queen needs someone found, I'm that woman!

My prey is the world and I always get my prey. Got it?

Cool, I'm Keith, I lose my keys a lot.

They'll be heading towards the Black Shores. Knowing Dartor, they'll stop every fifteen minutes so he can piss loudly and too close to everyone, while talking about an imagined sexual conquest.

I...

He's the worst.

Kee-th?

(snort)
mwah?...

You need to be alert. We're entering The Uncharnted Forest.

Also, you have a level of sleep arousal that, at this point in our relationship, does nothing for me.

Oh, um ... sorry. I ... had a childhood blanket that felt like you, so ...

Wait, did you say ... UNCharnted Forest?

Yeah, there was a time it was called Encharnted Forest, but it seemed a little silly. Like, we're not babies, y'know?

Is it ... dangerous? I'm historically bad with scary stuff in the dark.

Oh, I can see in the pitchest of night. Nothing's scary when all's revealed. All I fear is commitment.

Well, as long as you're committed to getting me through this dumbcharnted forest bullshit, I can probably temper my unending fear of dying—

—alone—

...you're
fucked.

CHAPTER THREE

I'm gonna
eat your eyes,
you #\$@%.

I ... what?
Are you serious?
That's gross!

Ugh, don't talk
to these rats.

Or we'll take
your #\$\$%ing
tongues too!

They're
Glomps. Garbage
trols. Talking to
them just makes
them worse.

I'll \$\$\$
all your
\$\$@%!

See? Just
pathetic.

Enjoy some
\$\$@%ing time in the
%\$\$@ing Shushroom
before Daddy gets here
and \$\$\$@s you all!

Whoa! It's ...
breathing that alien
pollen crap made me able
to translate anything,
but those words are so...
indescribably horrible,
my brain refuses
to process them!

Like ... they're
racist? But toward
races I haven't even met
yet? That may not even
exist? Does that make
sense?

It does,
Prince of the
Dance Floor ...

...and it is good to see you reconsidered joining us.

Oh, man! It was emasculating to be taken down by elves, but you guys are usually *super-masculated*, so now I don't feel so bad!

They ... possessed the element of surprise.

The cowards jumped from the trees as I relieved my fleshy blowdart! 'Twas Glomps and piss everywhere! Everywhere!

So, uh, you guys know these douchebags?

Unfortunately.

Glomps used to live in Endom. They were always kind of shitty, but over the years they dug in their heels and got shittier.

Then, claiming "glompandry" when Endom ceased to tolerate their rampant sexism and racism, they—

—created this society of freedom!

Freedom from those who would censor our glomptruths! Freedom from the %\$#@s and the %\$#@s and of course the %\$#@'s who control the media!

Are you silencing us in our glomphomes now??

Oh, for ... no one has ever attempted to censor Glomps! You began eating people, so, yes, you had to leave!

And if eating people was part of our religion we'd probably be %\$#@&ing fine to do it, right??

Even in the *Uncharted Forest* we're still persecuted for our beliefs! Not just by you %\$@%, but by ... others.

And so, despite your mistreatment of our gentle folk, we will let you go—

—if you bring us the head of ... Melvon the Wizard!

Last time I did this the hunky guy got killed...

We will not die today. I am not a man who fails.

Uh, you got captured by dudes who were, like, three apples tall, tops.

Sorry.

I am ... rusty. Endom has known peace for many years and my services have not been ... as needed... in that time.

To be truthful...

...I am... somewhat grateful for your appearance on Kaptara, Prince of the Dance Floor.

This mission has renewed my sense of purpose.

Now you get to kill a wizard, like you've always wanted.

And you can call me Keith, y'know. Only my, uh, subjects back home call me by my full title.

We're here.

Spooooooky.

It does not appear to be guarded. Once in, we should find this "Melvon" and subdue him.

We're ... not going to kill him, are we? I mean, I'm assuming he's a good dude if those creep trolls hate him...

Nobody dies today....

...who meets my height requirements.

Let us tread carefully, Keirh. There may be traps all around.

Shh! Do you hear that?

...don't you talk that way to me!...

...I'll have you know I fought in the Cryo Wars! I DEMAND "respect!"

No, what I'm TRYING to "tell" you is I don't want all these "channels!" I'm 78 years YOUNG and I have no need for a "Battledong Channel," but I'm being "charged" for it!...

...Yes, I "understand," but I'm on a FIXED income and I'm 78 YEARS young! ...

...Did I just hear you GROAN? At a "veteran??" I demand to talk to your—

-manag... elf...

Hey! I know we're intruders, but it's cool! We just want to talk. We ran into some gross forest bros named "Glomps," and—

GLOMPS.

SO, THEY'VE FINALLY SENT 'TEEN STREET GANGS' TO POLISH OFF 'OL' MELVON, EH?

WELL, "PREPARE" TO "RETIRE EARLY!"

ahhhh shit.

Open cell 17.

I ... are you certain, ma'am? I mean, they're not ...

You Dallerian scum! These are "orders," not "suggestions," you—wait, are you ... crying?

(sniff) n-no, of c-course not...

A-apologies for Tod's reluctance, Madam Vilektra. It's just that these prisoners are quite dangero—

CRREEEE

Yes, we know.

AND WHY SHOULD WE NOT KILL YOU, VILLLEKTRA?

It was Skullthor who imprisoned you and I who freed you.

And we are now free, so, like Krush says, why should we not kill you?

Skullthor is missing, Milas. I am in charge of The Dark Boroughs until his return and, unlike the man who imprisoned you, I see value in your skills.

I have a bounty for you.

In return, you will control The Nether Swamps and receive one million platinum units.

Ah! The Swamps! But why not simply take the region ourselves?

Certainly. Fight and kill hundreds to gain the swamps. Or, instead, slay the small band I wish dispatched.

Oh, did I mention the band's leader? I believe you're familiar with ...

...Manton?

So ... are you, like, all dudes here?

Yeah, makes things easier. No distractions. There was a Glompette for a while, but—

Glompette bailed.

—We kicked her out. Too emotional!

I fucking hate emotions!!!

Ha ha! So this village is made entirely of homophobic, straight man-trolls!

100%! We do sexy drawings of ladies for each other, which is super straight!

Yes, of course! Straight trolls inspired to arouse other straight trolls!

Ha ha!

Your repression is adorable!

Why doesn't he get it?

They're back!

Show us you've succeeded or your friends get roasted like beefy glompmallows!

It is done.

Haw haw! Let them go! A Glomp always keeps his word, even with #\$\$%!

What ...
what is the
meaning
of—

You send
teens to
MY home?

Well, guess
what, you little
shits, now I'm in
"your" home...

BUMP
BUMP

...And it's
MELVON
"time!"

Ha ha I feel
like I'm 40
again!

Should
we ... just
go?

I don't
see why
not.

You say
what you
say

Wait! We ...
shouldn't we stop
this, uh, wizard
from killing all
these Glomps?

what the
hell is my
life now?

She-La. Now that you have delivered Keith to us, are you bound for Endom?

The queen said to help you any way I could, and it looks like you could use it. I'll ride with you if that's all right.

Not necessary. My team has been assembled and we're well on our way—

—Hey, Manton. It's me you're talking to.

You need help. I was at the Battle of The Reeking Throng, remember?

I know what you did for everyone—

—And I know what that day did to you.

I do not need a lecture. Nor a history lesson.

Manton...

Join us or be on your way. It will not matter to me.

The more, the merrier! A cavalcade of warriors! Ha ha!

Just! Just ... cut it out!

You don't need to kill them all!

WHO ARE YOU TO TELL ME WHAT TO DO?

I'M 78 YEARS YOUNG AND I'LL SMASH THESE SHITS INTO "GOO" IF I WANT!

Look, I get it! They're assholes! But ... there's nothing to be gained here! You should ... come with us instead! We're on a mission! To help people!

Wouldn't ... wouldn't you like to help people instead? Prove yourself to be ... a valuable member of society?

I DON'T HAVE ANYTHING TO "PROVE!"

Look around you! These guys have almost no resources and probably no trade partners based on their attitude!

Their hands are constantly in their pants, so I'm assuming they have genitals, which means they reproduce sexually. That's clearly not happening.

If you want revenge on these guys, just let them exist! They'll continue to wipe themselves out. Slowly!

HRRRR!!

Madam Vilektra?

...Madam Vilektra?
I've been trying to contact you, m'lady.

I've been combing through data and believe we need to act.

Lord Skullthor's armada should have passed through the rift easily and sent word to us by now.

But from what I've been able to deduce, it appears the rift was created without a stabilizer onyx.

This is obviously concerning. I cannot imagine the Science Horde would make that mistake, so I suspect tampering by outside forces.

As a result, I fear Lord Skullthor is indeed in danger and it's imperative that we send a crew after him immediately.

He bravely set out to conquer a new world. Perhaps he succeeded.

Perhaps he didn't.

But the question remains: why?

Why set out to conquer a new world when there is one here, beneath our feet, to claim as our own?

Because he was a failure.

He could not take this planet. Time and time again he tried, only to be sent back to The Dark Boroughs, bruised and bloodied, licking his wounds.

There is no shame in losing a battle. Provided you rise up again and again until you get what's yours. Skullthor did not. He threw his arms in the air and decreed:

"I am over. I cannot win."

"I am over."

So he fled. And left us here. To what? Wait for his return? Pine for our once-great leader?

I say no. I say we remember the Skullthor who once was and honour that memory. Honour it by doing what he never could.

It appears that Osteo Ferocious is a caveman wearing animal bones, but he's actually animal bones riding a caveman! The bones are a symbiote that controls him! VERY COOL!

CARCASSIST

CLASSIFICATION: Larval Siege Weapon

This sentient catapult is ideal for large battles, as she's continually birthing rock-hard babies to be flung at enemies!

WHIPPERSNAPPER

CLASSIFICATION: Fish & Whips

Whippersnapper spends 95% of his time underwater! Which makes it incredibly hard to practice his whipping skills, so he tends to do a lot of it while on land! TO INNOCENT PEOPLE.

WHERE THE WINDS BLEW

THE AUTOBIOGRAPHY OF DARTOR, PRINCE OF ENDOM

An excerpt

I had never intended to go to The City of Lunges, but my best friend, Johnny Fists, refused to believe I was dating a girl there. Yet the fair maiden Mel-Lissa was no imaginary woman-friend! Far from it! She was as real as the many hickeys which adorned my princely neck like bruise jewelry! Johnny Fists laughed at my proof of good times, noting that the dark marks looked like something my roommate, Trunk Hunk, could deliver with ease.

"No one calls Prince Dartor a liar!" I deeply squealed, and punched Johnny Fists in the throat. But, as the old adage goes, "never start a fist fight with a man who has 'fist' in his name." Johnny clocked me but good in my attractive nose, breaking it once again. After our scuffle it was agreed: I must supply definitive proof of Mel-Lissa's existence and interest in me.

She had visited me in Endom a week prior, but had made no plans to return soon, citing the fact that she "had a lot on her plate" and was "going through some stuff." Perhaps a surprise visit from the "Prince of Makeouts" would be just the thing to pick her spirits up! Ha ha!

I left the next day, riding Samuel, my trusty cat-tank, and accompanied by a fine acquaintance, Photo Bomb, who could capture proof of Mel-Lissa and me making love using his built-in torso camera. Could I have simply taken a regular camera on my quest? Of course, but friendship on a long journey is important and I enjoy people watching me make love. I am a giver!

Samuel caught a cold on day two, so I had to put him down on the side of the road. Photo Bomb left a note on his bloated body apologizing for our not burying him, and explaining that we were late for a grand fucking. I dare you to find a single person alive who would not empathize with such a note!

Photo Bomb was a husky man-camera, so I rode him for most of the journey's remainder. At least until he started sniffing. He was a good man and will be missed, but I was not about to give Mel-Lissa a cold on top of what she surely acquired on our first evening of love-making!

So, alone, I strolled Bloodletting Trail, my mind reeling from thoughts of all the wonderful sex I was to have in three days time. Oh, Mel-Lissa! With your correct number of teeth and interesting body! Soon you would be mine yet again!

As I approached The City of Lunges days later, a man stood on the trail, defiantly in the centre. He was a burly, middle-aged sort with a receding hairline and a very droopy

face. He was almost nude, save for much gold jewelry and a fur-covered girdle and manties (man panties). Also, he was covered in blood.

“Hello!” I barked, one hand on my trusty blowgun, the other waving like a child. The man held his sword away from him like a cock presented to a loved one on Freedom Day.

“WHO GOES THERE?” he barked back.

I barked once again. “I am Dartor, Prince of Endom! And I have come to make love to Mel-Lissa, Music Promoter of The City of Lunges! Step aside or feel the sting of my nasty darts!” The road gentleman’s muscles tensed and he declaratively barked back, “I AM RED CARL, WARRIOR OF THE LOST LANDS. AND WHOSEVER BEATS ME IN BATTLE GETS TO BED ME.”

Red Carl was not my type, so this unusual offer held no appeal to me, but getting past him and on to Mel-Lissa (and onto Mel-Lissa ha ha) did. “I do not wish to bed you! But I really need to get past you to a very important appointment! Is there any way of—”

Red Carl swung his sword, narrowly missing my powerful chest. I stumbled back and quickly put blowgun to lips. I blew a tight, short burst of air and a level seven intoxication dart flew toward my new nemesis. But Red Carl was faster than he appeared, and knocked the dart to the ground with his blade. His next swing caught my blowgun itself, cutting it in two and rendering it useless. All I had now was my greatest weapon of all: my body.

As Red Carl swung his blade again, I dove to the ground, avoiding its trajectory. Once low, I punched the fiend’s left knee quite hard, and he tumbled to the ground in agony. I took that moment to leap atop him, knocking the sword from his grasp. He struggled mightily, but a classic “Dartor-elbow-to-the-face” showed him he was defeated. He looked up at me with fury and sadness.

“You have defeated me. I am yours.” Red Carl gestured with his head down to his very average body, dotted with sporadic tufts of hair. Again, he was not my type, but I admired how he swung his blade, so I kissed him. He eagerly returned my affection and we fucked in the road for hours. Later, as we lay off to the side of that dusty trail to finally let the backed-up carriages through, I managed to get him to admit that he does this every day because it is the only way he knows to explore this side of himself while still honouring his marriage to a lovely office administrator that he’d been with since high school.

“I made up this code, which she respects, even though it confuses her. I suppose one day I will just have to talk to her honestly about an open marriage.” He grew sad, which, frankly, is a huge turn-off for me, so I left. Did I continue on to meet Mel-Lissa and her expected sex?

Aye, I did.
